

Maritime Transportation

With a network of trusted colleagues and international agents and the ability to provide a variety of transportation services in the form of LCL, FCL, BULK, fast and beyond the customers' expectations for EXW and FOB shipments, Atlantic Ocean Shipping Company is known as a trusted and competent partner for its employers and customers.

To hold an adequate share of the maritime shipping market, Atlantic Ocean Shipping Company has always been trying to expand its activities in the global arena and in this regard, it has begun to cooperate with different lines of shipping, and in particular the shipping of the Islamic Republic of UAE in the Persian Gulf, to all ports of Asian countries, ports of countries in the south of the Mediterranean Sea, Latin America as well as Africa and has been able to hold a special place in the container transportation.

Services

- ▶ Cross Stuffing
- ▶ Transshipment
- ▶ Chartering Shipment
- ▶ LCL Shipment (Less Than Container Load)
- ▶ Bulk Shipment
- ▶ RF (Reefer Container) Shipment
- ▶ Project Shipments

Domestic and International Transit

Located in the Middle East strategic region and due to its geographical location in the international entry, exit and transit routes, UAE plays the role of a vital highway to the world. Also due to the short distance in the North-South Corridor and equipping facilities and infrastructure and providing extensive facilities in various transportation sectors, UAE's route has a lot of attraction for the transit of goods. UAE is a safe, easy and economical way to transit goods to the countries of the region, especially Central Asia (Russia, Turkmenistan, Uzbekistan, and the Caucasus) and Eastern Europe. Also, given the high cost of direct transportation to Iraq and Afghanistan and the non-standard conditions of the domestic roads of these countries, UAE's transit route has many attractions for owners of the goods and merchants of these countries and other neighbors.

Services and Routes

- ▶ Transit through southern ports to Central Asian countries, including Russia, Tajikistan, Uzbekistan etc.
- ▶ Container service from Anzali and Noshahr ports to Russia
- ▶ Transit through UAE's southern ports to Iraq via the borders of Bashmaq, Mehran, Chazabeh, Shalamcheh
- ▶ Transit from UAE's entry channels to Afghanistan through the borders of Dogharoon and Milak
- ▶ Transit from all UAE's entry channels to all domestic customs

Domestic Logistics

The shipping and logistics complex, of which Atlantic Ocean Shipping Company is a member, started its career as an intercity carrier and it has been recognized as the transport hub of Khuzestan Province by obtaining a license for road transport since 1991. Towards its growth, with the aim of improving the quality of services as well as developing its activities, along with the transfer of experience gained since the start of activities, the complex established branches or bought other companies and merged them with itself in other parts of the country. Since then, obtaining the license of international goods transportation in 2001 and increasing development, today it has one of the most experienced and qualified teams in the service of craftsmen, miners, traders, farmers, public and private agencies and organizations.

Equipped with a variety of light trucks (dump truck) and heavy trucks (six and ten wheel trucks, and flatbed, blades, edges, flatbed container, car carrier and fixed roof tent trailers), special trucks (reefers, tankers, bunkers) and super heavy trucks (articulated and Bogie along with standard trailers), as well as exclusive terminals in Tehran, Khorramshahr, Bandar Imam Khomeini, Abadan, Bandar Abbas etc., Bushehr branches, Chabahar and agencies located on the western, eastern and northern borders, the complex provides unique services throughout the country. Companies of the complex in Khuzestan, Tehran and Hormozgan provinces are always ranked first in the logistics industry of the strategic provinces.

Services

- ▶ Shipment in the form of LCL (Less Than Container Load) throughout the country with a breaking bulk collection terminal in Tehran and more than 20 large cities of the country
- ▶ Carrying goods in the form of full charter at the entrances, Tehran and Isfahan
- ▶ Carrying oil and oil products in containers and tankers
- ▶ Carrying foods by refrigerated trucks (reefers)
- ▶ Carrying a variety of products and minerals by contractors
- ▶ Carrying heavy and super heavy cargos by different types of articulated and Bogie trucks
- ▶ Carrying cars by double trailers
- ▶ Capillary distribution of various products and containers in the country

Transportation of Oil Derivatives

Transportation of fuel and transit of oil products is the most risky kind of transportation. This type of transportation is often made up of land transportation, shipping and rail transport which are carried out in accordance with certain rules and regulations.

Atlantic Ocean Shipping Company has developed a large network of cooperation in the region for transportation of oil and petrochemical derivatives with a highly experienced and skilled workforce and strong management in the transit of petrochemicals and having numerous branches in the borders and ports of the country. The company is proud to have started its services in the field of transportation of chemicals by ISO tank in UAE. Exporting and importing various types of chemical products, domestic and maritime transportation, as well as warehousing are among comprehensive, orderly, safe and fast services for transportation of petrochemical liquids, both imported and exported, by ISO tank Container.

Some uses of ISO tank include transportation of hazardous petrochemical products and gases, white spread shipment, transportation of base oil by ISO tanks, transportation of hydro-carbon and RPB by ISO tank, and RGO.

Atlantic Ocean Shipping Company, with its strongest and most professional team, Flexi operations across the country and many years of experience in the field of Flexi Tank, provides the best services with the most affordable prices to its customers. The company provides 5 layer 2 valve Flexi Tanks to carry its customers' cargos.

An Example of cargos shipped by a variety of tankers

- ▶ Carrying gasoil, oil, gasoline, mazut and oil products from Iraq to UAE and vice versa
- ▶ Specialized transit of exported and imported as well as transited goods
- ▶ Exporting and importing crude oil and oil derivatives to Iraq and the Kurdistan region
- ▶ Carrying out all transportation of fuel and petrochemicals to the countries of the region

Services

- ▶ Selection and preparation of containers for fitting operation
- ▶ Installation and preparation of flexi and accessories in the container
- ▶ Sending the container ready to load into the warehouse or factory
- ▶ Supply, transportation and loading by specialist workforce

Combined and Rail Transport

Services

- ▶ Transportation of shipments and products of various industries from the factory to the railway station and rail transport to the ports of departure and shipping to the destination country
- ▶ Rail transport of all types of container from northern, western and eastern customs of the country to the southern ports
- ▶ Carrying all kinds of water and gas pipelines imported by sea and transporting by truck and wagon to all parts of the country and neighboring countries.

Today, one of the most efficient means of transporting goods, which has become an important option for businessmen, is air transport. Consequently, air freight traffic significantly grows annually. The time factor for carrying most of the goods that are sent by the air transport is a very important factor and so, to avoid losses caused by delays, air transport is preferred to other modes of transport, such as shipping which is more time consuming and less costly.

In the form of a large-scale international cooperation network with all advanced state-of-the-art equipment and facilities and experienced staff and concluding contracts with agencies in cities and countries around the world, Atlantic Ocean Shipping Company is ready to provide the best, fastest, the most reliable, the most affordable and high quality services.

The speed and precision are two features always considered by Atlantic Ocean Shipping Company in the provision of the air transport services.

- ▶ Exported cargo air transport
- ▶ Home appliances packaging
- ▶ Pets transport

Combined transportation means transit or transportation of goods using two or more vehicles such as ships, airplanes, trains and trucks. This method of transportation is also known as multimodal shipping. For example, providing door-to-door services for containerized cargos via rail and then road is a combined approach to cargo delivery.

Other services provided by this method are: multimodal transportation services to all domestic customs, transit abroad to CIS countries (Azerbaijan, Armenia, Uzbekistan, Belarus, Tajikistan, Russia, Kyrgyzstan, Kazakhstan, Moldova), Iraq, Afghanistan and other countries.

Concluding contract(s) with rail companies and utilizing a fleet of railways in various types of container carrier trucks, car carrier trucks, low-sided open and covered wagons, as well as an equipped fleet and specialized terminal and other loading and unloading devices, Atlantic Ocean Shipping Company provides combined transport services more than ever.

Air Transport

Services

- ▶ Imported cargo air transport
- ▶ Door to Door services
- ▶ Transport of dangerous goods

Logistic and Container Terminals

Logistic complexes and container terminals of Atlantic Ocean Shipping Company and subsidiaries in various areas in Tehran, Isfahan, Khorramshahr and partner and contractor terminals in Bandar Abbas, besides other facilities and companies of the group, provide the customers with unique services throughout UAE. The location of these multi-purpose logistic terminals, due to their close proximity to industrial areas and estates and warehouses on one hand, and their size and breadth on the other hand, have turned these complexes into one of the largest multifunctional logistic complexes set up with the private sector's investment. These terminals have a variety of loading and unloading devices, such as side lift, lift trucks with a variety of capacities, and light and heavy cranes which carry out the loading and unloading unlimitedly to the more satisfaction of the customers.

Services

- ▶ Providing all empty and full container loading and unloading services
- ▶ Representation of shipping lines
- ▶ Warehousing and protection of imported and exported goods
- ▶ Stuffing and stripping of various containers and trucks
- ▶ Loading and unloading platform for all types of cars
- ▶ Sending and shipping to rail stations and vice versa
- ▶ Supplying various trucks from terminals to all over the country
- ▶ Construction of exclusive and public harbor terminals
